DETAILED ACTION

1. Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kotera et al.

See last Office Action

Response to Arguments

2. Applicant's arguments did not relate to any specific language of the claims. It is the examiner's position that using fiber glass in Kotera et al. is clearly within the level of ordinary skill in the art at the time the claimed invention was made. In any event, the arguments of applicants cannot take the place of evidence in the record. The specification, page 7, lines 4-6, clearly states that the invention works well with any known acoustic materials.

3. **Claims 3-13 are allowed.**

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2837

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
